

TRANSFORMING SOUTHBANK BOULEVARD

Upcoming works - Kavanagh Street to City Road

October - December 2019

Significant progress has been made on the Southbank Boulevard project in recent months, with the roadway between St Kilda Road and Kavanagh Street reopening ahead of the AFL Grand Final long weekend.

Works on Southbank Boulevard will now shift to the section of roadway between Kavanagh Street and City Road from the start of October until December 2019.

Impacts include:

- Closure of the entrance into Southbank Boulevard from the City Road intersection.
- Traffic diversions around the works zone.
- Night works and weekend works (further details).
- Medium to high noise levels at times as we undertake utility, signal, and construction works.

Activities to be carried out include realignment of the roadway, traffic signal and other utility installation works, public lighting installation, kerb and channel construction and road re-asphalting.

While the closure will be disruptive to pedestrians and motorists, it is necessary in order to complete this important stage of works. Detour signage will be in place on site.

We thank you for your patience during these works.
