

MSO

JAMS FOR JUNIORS ONLINE

Make your own clarinet

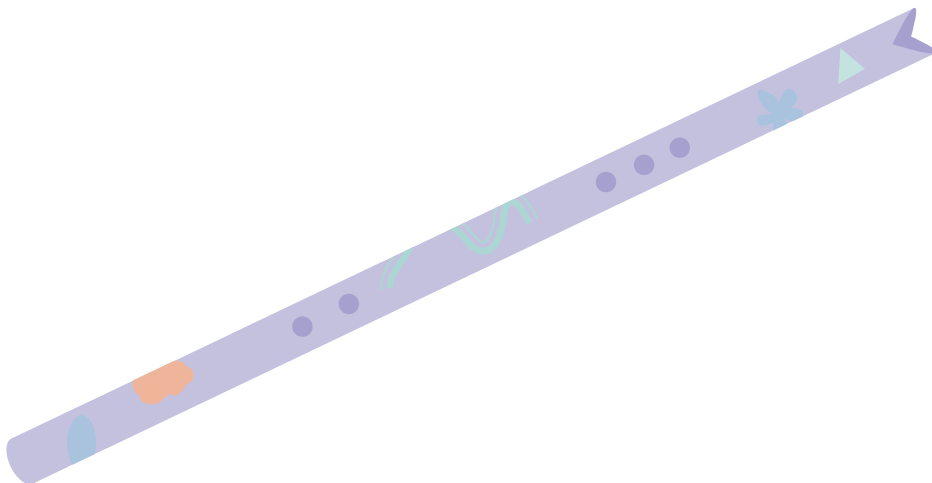

You need:

- A plastic drinking straw
- Scissors (use with care and under supervision)
- Paint or stickers for decorating

Instructions:

1. Decorate your straw with paint or stickers.
2. Cut one end of the straw into a “V” shape.
3. Place the cut end of the straw in your mouth and flatten the straw with your teeth.
4. Blow. To change the sound, you can use different length straws, or ask an adult to put small holes in the straw and put your fingers over them.
